DEPARTMENT HEAD REPORTS

Sheriff Mike Mollenhauer thanked the Council for approving five new jailers allowing the jail to open 80 additional beds. He stated that over the July fourth week end there was a record number of inmates. If those beds would not have been available, he would have to transfer some to out of County facilities.

Commissioner Mike Bohacek addressed the flooding issues along Welnetz Road in Michigan City, he was given approval to obtain more information for the Council.

Recorder John Stimley reported on the Affordable Housing Ordinance that was passed previously. He reported not getting State Board of Account's approval on this because he was told that there could NOT be caps put on the fees. Council member Mrs. Sosinski agreed. Council Attorney Don Baugher said he didn't believe there were any provisions in the IC code regarding this. Council member Mr. Garner told Mr. Stimley that the Council approved this so just do it. After more discussion, it was decided to have the Attorney to do further checking.

LIAISON REPORTS

Mrs. Sosinski met with the Clerks office. She suggested that the County should try to recoup the \$28,000.00 cost of the special election for the Career Center from the Michigan City Area School Corp. She also met with the Recorder's Office and reported her concerns regarding the Affordable Housing fees.

Mr. Ford met with the Surveyor's Office regarding the storm water planning. He met with Court House Security regarding the maintenance and certification of the x-ray machine. He also met with EMS regarding overtime expenses and equipment.

Mr. Mrozinski reported meeting with the Veterans Office. They have had positive reports from Veterans regarding the move to the 555 Michigan Ave. location. The City of LaPorte has even added an extra handicap parking space to help with the parking situation.

Mr. Garner met with the Auditor's office regarding professional help for the upcoming budget. He did not think this was necessary even though no one in the office had ever fully been involved with the entire process. He also commended the Purdue Extension Office for a great County Fair.

Mr. Bernacchi met with the Planning Commission regarding Contractors Registration.

Mr. Cunningham met with Circuit Court Judge Tom Alevizos on several matters and met with the Juvenile Services Office.

Mr. Yegalski reported that the Fair Board did an excellent job this year and voiced concerns and changes in the budget process this year.

PUBLIC COMMENTS

Keith Harris voiced his opinion against hiring outside help to prepare this year's budget. Said the Auditor should do the job, not farm it out. Since the budget is one of the duties that the Auditor was elected to do, he should be capable of doing it himself.

Walter Kutzberg spoke out against the Springville Regional Sewer District. Said the Renaissance Academy was putting in the sewer line to hook up with the Michigan City sewer system at a cost of \$134,000.00 to the school. If other residents want to hook up he stated huge costs would be involved.

Mike Kobos also spoke out against the Sewer District. He also spoke out against the extra recording fees connected with the affordable housing ordinance. He also agreed that we should try to get money back from the Michigan City School Corp. for the special election. He also spoke out against the special election regarding the Regional Transportation. He stated that budgets are usually ignored; departments come back to the Council for more money during the year so why even have a budget.

Dennis Metheny strongly disagreed with Keith Harris. Auditor Hinchman is trying to do the right thing for the tax payers in requesting professional help stated that the Council gives the Assessor, Carol McDaniel's millions to fund "unapproved contracts". He spoke out against giving ten year abatements, suggested to only give five year abatements. He stated that he was against the payment of overtime for the PRM Fest, stated that the tax payers should not have to pay for a private agreement. He questioned the need for additional computer and scanning equipment in the Planning Department, he also recommended that departments stick to their budgets and not keep asking for money during the year.
