

Addendum 6

10/26/2020

Questions that were brought up concerning the LaPorte County Infrastructure Project.

1. To clarify the answer to Addendum 3, Question 4.

(4. What is the County's thinking about 950 asphalt? Looking at the project, it appears that the county road is not in the best of shape and I am not sure that the road will hold up to construction traffic for installation of the water main. Please clarify.)

The County has no plans to resurface the 950W or 300N prior to project completion.

The County is anticipating road damage.

All road and drive repairs will be paid under the unit prices for asphalt and concrete.

2. Watermain Line A1 and A2 has 37 trees to be removed, there is more than 37 trees.

Line item W17 should be bid as a lump sum quantity.

3. *All MH's, piping, fire hydrants, valves etc., will be paid for under the existing unit prices for those items.*
