LaPorte County WORKS! – Enprotech Industrial Technologies

****LaPorte County WORKS! program kicks off 2022 reporting on local manufacturer of metal stamping, forming and forging equipment located in LaPorte County, Indiana****

(LaPorte County, IN): Commissioner Sheila Matias kicked off 2022’s first LaPorte County WORKS! with a spotlight on Enprotech Industrial Technologies, a leading supplier of repairs, rebuilding and new equipment for the steel manufacturing industry. The company which is a manufacturer of metal stamping, forming and forging equipment and services was highlighted on January 5th 2022. *LaPorte County WORKS!* is an initiative to maximize awareness, focus on business retention and employment opportunities in this business report. The program, created by Commissioner Sheila Matias and staffed by the Office of Community and Economic Development, is a business report whereby Commissioner Matias highlights a unique La Porte County company during the Commissioner Comments section at each Board of Commissioners meeting. These reports aim to share information about our local economy, honor members of our diverse business community, and make citizens aware of job opportunities in LaPorte County. Highlighted companies are listed on the county web site at www.laportecounty.in.gov under *LaPorte County WORKS!* on the Home Page.

“As a result of the many positive responses from both the community and from the companies we have highlighted in 2021, we are proud to continue this project in 2022. La Porte County *WORKS!* highlights and honors our LaPorte County employers, diverse services and products made right here in

our county as well as great job opportunities close to home that offer great benefits, wages, and positive company cultures. There's no time like the present to take advantage of these opportunities if you are looking for a job or a new career pathway," stated Commissioner Sheila Matias.

"LaPorte County WORKS! is working! Companies have come forward requesting to be highlighted at the County Commission meeting, and we couldn't be prouder of the early results. My hope is to highlight their products, services, and history because each of the companies contribute to making our great county the premiere place to work, live and raise our families. We want to ensure that LaPorte County residents who are seeking a new career, a better job or an opportunity for success can look no further than the many great employers right here in beautiful LaPorte County, Indiana," concluded Matias.

This week, the focus is on **Enprotech Industrial Technologies**, a local company with over 60 years of experience in designing, manufacturing and repairing manufacturing equipment for the steel manufacturing and aluminum manufacturing industries.

Past spotlights of *LaPorte County WORKS!* include Alexander Chemical Corporation, Vanair Manufacturing Inc., Sims Meat Processing, Sullivan-Palatek, and Helena Agri – Enterprises.

This Week's Highlighted Manufacturer:

Enprotech Industrial Technologies – January 5, 2022

Enprotech Industrial Technologies was established in La Porte, Indiana at 3234 North Indiana State Road 39 in La Porte, Indiana in 2001 in order to expand and better serve steel industry customers in our region. They currently employ 26 employees with wages between \$25.00 to \$34.00 per hour. Enprotech is committed to providing innovative steel making & metal forming equipment solutions coupled with outstanding customer service. They have manufacturing sites in: Cleveland, Ohio; Lansing, Michigan; LaPorte, Indiana, and Elizabethtown, Kentucky.

Attracting good people and keeping them is essential to the success of the company. The company attracts talented, qualified professionals and provides them with opportunities for advancement in all aspects of their professional lives. The company offers the following benefits: health/medical plans, dental plans, vision plans, 401K plans, life insurance, Short- and Long-Term

Disability Plans, and paid vacations and holidays. Some current openings include welder (night and day), Class B driver (local), shipping and receiving coordinator, and millwright. To review and apply for these jobs, go to <https://www.enpromech.com/careers/> and click on the ‘Apply Now’ button.

“What makes the La Porte County Works! program both exciting and effective is the regularity of the business report-outs as well as the assistance from the media to help us spread the word to people looking for a better opportunity for their families. Our goal is also to make sure our young people know they don’t have to leave our county to build a great career and earn a good income. Most of the companies Commissioner Matias is highlighting are companies that may have a low profile and while being a solid employer, they go about their business producing, manufacturing and creating without a lot of fanfare. But local companies form the backbone of our economy and when they need our support, we are there for them. Right now, many of them need employees and this program addresses that need. That’s is what makes us so excited to dive into 2022 with this highlight on Enprotech, a solid local company with enticing wages, benefits, and opportunities. Local companies are invited to submit a request for a highlight at the link below,” concluded Tony Rodriguez, Director of the LaPorte County Office of Community and Economic Development.
