Alexander Chemical Corporation

- In 1950, Alexander Maley founded the Alexander Chemical Corporation. In 1959, Alexander Chemical Corporation became the Chemical Division of North American Car Corporation.
- The blending of all the right elements enabled Alexander Chemical to grow its product line, and in 1985 they first opened their doors at the now consolidated facility at 7593 S. First Road in Kingsbury, Indiana with the purchase of Cardinal Chemical Corporation.
- Alexander Chemical Corporation is a leader in the water purification industry that supplies industrial gasses and chlor-alkali products to major chemical and petroleum companies, pharmaceuticals, industrial users, and municipalities throughout the Midwest.
- Alexander Chemical is also an industry leading supplier of industrial gasses to a wide range of industries such as the pulp paper, steel, and agricultural industries.
- The reason why Alexander continues to be a leader in the industry is because of their tireless dedication to safety and employee education.
- Alexander Chemical has a transportation arm, Circle Transport, Inc., with an extensive fleet which allows them the opportunity to offer safe and dependable transportation of their products to their customers.
- Their trucks are equipped with specialized equipment and unloading configurations to assure efficient and safe transport of products to receiving sites. From order placement to the final shipment, Alexander Chemical Corporation is committed to the singular goal of customer satisfaction in the safe use and the handling of its products.
- They are a privately held company with a total of 62 employees for both Alexander Chemical and Circle Transport, of which 38 are union positions, with an average wage of \$29.50 per hour.
- Alexander Chemical is proud to offer many different paths to those who want to build a career in the chemical industry.
- They offer competitive wages, union benefits with a 401(K) with company matches, and competitive paid time off.
- For more information on ACC's markets, products, and services, please visit <https://www.alexanderchemical.com/>.
