WORKS!

History:

Paul E. Sammann started the company importing screen cloth and other hardware from China. In 1943, Mr. Sammann had two offices, one in China and one in Japan. In 1943, during World War II, he closed both offices and moved the company to New York. In 1944, Mr. Sammann moved the company to Chicago and added shears and cutlery to the lines of imported goods.

Paul N. Sammann purchased the company from his father, and in 1988 purchased See Aid Optical thus expanding in the eye care industry. The Peepers brand was founded in 1993 when Paul's wife, Terri, could find only ugly "readers" in the marketplace. Peepers started with one frame style and six colors of fashionable readers. Peepers was then introduced to the world through the internet in 1996. In January 2012, the Sammann Company was purchased by the 4th generation of owners, Alex and Lindsay Sammann. In 2015, Peepers built 10,000 square feet addition to accommodate 30 new work spaces. A new showroom, kitchen, breakrooms and a gym were added in 2016. In May 2019, Peepers headquarters added a massive expansion of a 30,000 square foot distribution center in Michigan City.

We are family

PEEPERS IS A 4TH GENERATION FAMILY RUN COMPANY THAT IS CONTINUOUSLY
REINVENTING THE SPECTACLE, AND WE HAVE FUN DOING IT!

Our company began with a quest to find upbeat eyewear, and that light-hearted spirit is embedded in everything we do. From our unique designs to a caring customer experience, our family's legacy is dedicated to the pursuit of fashion as its most fun.

Garwood Orchards

Family Farming Since 1831

- Located at 5911 W. 50 S. La Porte, IN is Garwood's Orchard and Farm Market, a family-managed farm and market that the Garwood family has been running for over 180 years. For 6 generations, the Garwood family has maintained a focus on farming, family, and community. It was started by John Garwood, a carpenter who moved to La Porte County in 1831 and took up farming. He was considered to be one of the founding fathers of the La Porte County area - in Scipio Township and Pinola.
- Garwood Orchards is a recipient of the Hoosier Homestead Award (1992) and the AgriVision Award (2020) for being a family-owned farm that has made significant contributions to the agricultural industry and has been owned by the same family for 100 years or more.
- Currently, the day-to-day operations are operated by the 6th generation Garwood's: Tom, Brian and Mike Garwood. The Garwood's currently farm over 440 acres which includes approximately 100 acres of apples and 340 acres of peaches, raspberries, pumpkins, strawberries, cherries, sweet corn, peppers, cucumbers and a variety of other vegetables. The market will open May 5, 2022.
- During the season, school and group tours can be booked through their website. Booking must be done in advance only. Scheduling is from May-August. Tours are available from early September into early October, and prices start at \$5 per person. More information can be found here: <https://www.garwoodapplefarm.com/school-tours>.
- Garwood's Orchard currently employs 24 people at an average wage \$18- \$19 per hour. In the summer months of operation, Garwood's will hire 40 to 50 persons to work the retail store at a wage range from \$10.50 to \$14.00, depending on position and experience. Employment opportunities provide an excellent opportunity for individuals-including high school students- to obtain new skills and work experience through seasonal employment.
- To apply, call and ask for Carey Garwood. The e-mail address is apples@garwoodorchard.com; the website is www.garwoodorchard.com, and the phone number is 219-362-4385. The market hours are from 8:30 am to 6:00 pm seasonally from May to November.

A Feature on LaPorte County's / NWI Construction and Building Trades

- Northwest Indiana was built by the skilled hands of countless hard-working men and women in the building trades who worked together to build the vast industrial complexes, commercial districts, residential neighborhoods, interstates, highways, and railways across the Region. In these exhilarating times for the construction and building industries in Northwest Indiana, “work practices are becoming increasingly more technical and specialized. Environmentally sensitive green construction methods and renewable energy technologies also are driving demand for a more highly skilled workforce. There is an increased need for skilled workers in these industries.”²
- [We Build Northwest Indiana](#) is a resource for people interested in a construction and maintenance related career. While some opportunities require a college degree, most require a comprehensive training and education program known as an apprenticeship. [We Build Northwest Indiana](#) welcomes you to explore the various career opportunities available in the Northwest Indiana construction industry. Post updates, job postings, apprenticeship application periods, photographs, and industry news can be found on their [Facebook](#), [Twitter](#), and [Instagram](#) accounts.
- The United States Department of Labor Office of Apprenticeship defines apprenticeships as a “unique, flexible training system which combines job related technical instruction with structured on-the-job training experience.” Trades such as ironworker, operating engineer, sheet metal worker, carpenter, electrician, construction laborer, roofer, millwright, boilermaker, plumber, painter, glazier, cement finisher, HVAC tech, and bricklayer are examples of the building trades careers that provide good living wages for families across La Porte County and Northwest Indiana.

² <https://webuildnwi.com/index.html>

A Feature on LaPorte County's / NWI Construction and Building Trades (Continued)

- According to John Carr, Senior Representative for the IN/KY/OH Regional Council of Carpenters, “Apprenticeships in the trades are a great opportunity for people who want on-the-job training and a valuable education in order to increase their access to quality jobs. Other benefits to this pathway include career advancement, credentials, technical skills, good benefits and wages, and job security. Also, our apprentices do not have any debt at the end of their training. This is an ‘earn while you learn’ program that is funded by the union and our signatory contractors.” Thanks to this program, by the time an apprentice finishes their education, they are debt-free and already have the experience to thrive in the workforce.
- Most apprentices begin employment day one, with incremental wage increases as they advance and become more proficient on the job. For example, construction apprenticeship programs last from 3 to 5 years in length. Once the apprenticeship period is completed and the student passes all of the required-coursework, he or she will have the technical skills necessary to be recognized as a master craft professional.
- Apprenticeship programs can be challenging, but they are the pathway to a full and rewarding career pathway. Individuals who demonstrate the special blend of academic, mechanical aptitude, and physical requirements will qualify. Qualities of successful applicants include strong work ethic, positive attitude, and dependability. General, minimum qualifications include being at least 18 Years Old, in good physical shape, and drug-free and having a valid driver's license, reliable transportation, and a high school diploma (or equivalent.)
- According to the Bureau of Labor Statics, employment in construction and extraction occupations are projected to grow 4% from 2019 to 2029. A skilled tradesperson working in the building trades can expect to earn anywhere from \$70,000 to \$90,000 depending on the trade and hours worked. In addition, people employed in the building trades receive health and welfare benefits as part of their benefit package. Most plans provide some form of medical, prescription, dental, vision, weekly accident and sickness, death and or dismemberment benefits. Most building trade employees also receive defined benefit pension plans depending on the trade.³
- To find out more about the local building trades, see the attached document. To find out more and to apply for positions within the building trades, please go to the following websites for apprenticeship applications at <https://webuildnwi.com/index.html>.
- The link to the Indiana Plan for the pre-apprenticeship program can be found here: [Application Form | Indiana Plan for Equal Employment](#).
